

Product Guidance

We, Reflomap Co., Ltd, as the leader of Reflective Soft Microprism Film in roll type, has developed wider width, 122cm of GLODIAN™ RGR-HW which is much brighter than the previous RGR-W.

You do not need to joint the sheets any more to make larger size. Reflomap GLODIAN™ RGR-HW in 122cm will be the best solution now.

It results in improved productivity of processing into the large size of the banner & flex for the advertisement.

1. Color

1 colors are available and custom colors are also available.

Item	Color
RGR-HW-01	WHITE

2. Reflective Performance

The Retroreflective performance is measured in accordance with the procedure defined in CIE 54:1982. Measures values are averages taken from 90° orientation, apart unless stated differently. The 0° orientation is to be taken as downweb of REFLOMAX supplied rolls.

The values are stated as coefficients of Retroreflection, R_A and the unit is $cd/lux/m^2$.

Item	Obs. Angles	Ent. Angles	Typical R_A
RGR-HW-01	0.2°	-4°	600

The above value is based on the initial performance. As RGR series is made with soft prism structure, we do not guarantee the reflective value after shipment.

3. Size and Packing

Roll Size : 122cmX50m

Packing : One roll per one carton box

Weight : 22kg per one box

Standard Box Size: 1,305x230x240mm

SQ.M per Roll : 61 m^2

4. Care Instruction

-  Do not Bleach
-  Do not Iron
-  Do not Dry-Clean

5. Storage

Store in a cool dry area and use within 2 years after date of receipt.

Store rolls in their original shipping cartons. Partially used rolls should be returned to their shipping carton.
